

Billionaire God of War

Novel Chapter 2339 –

2340

Chapter 2339

Whatever the greedy wolf, they can't think about it.

They can only watch the changes and make some preparations in advance.

Andrew didn't say much to the old naughty boy. There were some things that he still didn't understand. He waited until the memory was digested.

Soon, he set off with Brother Dog and others.

The longevity pool in Tiangong has recovered, then Andrew will not miss such an opportunity, whether it is himself or Harrison.

Andrew had already seen what effect the water in the longevity pond had.

Even the old urchin, who is described as withered, can reshape his life. After the baptism, the dog brother and the others may have a further opportunity to transform.

No matter what it will be, they don't want to miss it.

The old naughty boy still stayed in the South Estopia to protect the people of the Lin family, but Andrew and the others went to Zhongnan Mountain and took Fang Qiu and others on the road to Heavenly Palace.

Andrew today is different from the past.

Entering the passage again, everything went smoothly, even, to his surprise, the living dead were no longer close, it seemed that the aura on his body was enough to repel them.

“What kind of place was this kind of place before?”

Harrison was a little bit unexpected. He looked around and found that they had reached the mountain and stone formations. The desolate atmosphere made people feel a little depressed.

At a glance, they are all stones, all kinds of stones.

“It should be like this?”

Fang Qiu looked at it and couldn't help but said, “There are stones everywhere. If you get lost accidentally, will you become a stone?”

Hearing this unintentional sentence, Andrew turned his head to look. Looking at Fang Qiu, he was slightly surprised.

He had never thought about this before, and at this moment, listening to Fang Qiu's random words, he seemed to react instantly.

When he came with Greed Wolf last time, the stones were all directed towards him, as if there was life. He used the formation pattern to analyze it, but he couldn't see anything. He just felt that the stones were alive. The first @@@

he never thought, what if these stones really become living?

"What's the matter, Master? I just said it casually."

Fang Qiu said.

"Maybe, what you said is true."

Andrew smiled.

"Let's go, don't stay here, lest there will be extra branches."

He took the lead and walked forward. Everything went smoothly. Nothing unexpected happened. It seems that since he sat on the dragon chair, he has been with this heavenly palace. A wonderful connection.

Andrew couldn't say it, and couldn't describe what it was like.

They walked all the way, directly to the dilapidated Nantian Gate? Paling, Lu'erling and serving Zhexi.

Looking at those magnificent buildings, even if they have collapsed to the ground now, they still give people a thick and majestic aura!

Harrison and others were stunned, short of breath, standing there felt that there was a slight pressure, making them a little breathless.

“Nan Tianmen...”

Fang Qiu took a deep breath, his face paled, “Is there really such a place?”

Even after listening to Jiang Ning’s words, you can hear other people say and see with your own eyes, it is completely two feelings. !

A group of people were dumbfounded and didn’t know what to say. They had an impulse to worship. It seemed that this place was the heaven of the real martial artist!

It is the place where they should be the most, and the most sacred place!

“It’s a pity that this place has been destroyed.”

Andrewsighed.

I don’t know how to say it. When he said this, he felt a sense of loss and sadness.

It seems that what is destroyed is his own home!

His heart is so strong that he has never been affected by his emotions, but when he walked to the ground of this heavenly palace, Andrew had mood swings more than once.

“Brother, can we rebuild?”

Brother Dog looked at Jiang Ning, “If Brother wants to rebuild, then we can definitely do it!”

Chapter 2340

“We are willing to give everything to rebuild this place!”

He was a little excited, and he didn't know why he said these words. It seems that Andrew was infected, and he was also infected by this emotion, and he couldn't help but want to rebuild here.

Seeing the white mist and feeling the different atmosphere, a group of people seemed a little depressed.

This is a ruin, but it can be seen that the former place was prosperous as a dream, and all traces are telling them that this place was once a heavenly palace, a place that is impossible to see.

“Why do the people of the caves want to destroy the Heavenly Palace?”

Fang Qiu didn't understand, "What are they doing this for?"

Andrew did not answer.

He doesn't know either.

If he knows the reason, he can prepare early.

But now, he doesn't know anything. The memory in his mind is just a fragment. Many things are not clear at all, and everything is still confused. /

Andrew was walking in front, and the others followed behind, looking at the ruined walls, sighing.

"Here are thirty-three stairs. You can walk up to the place where the longevity pond is."

Andrew said, "but I have to remind you that these stone steps are not simple. The gravity of each layer is different and will become It's getting more and more frightening. Only when I adapt and can bear it, can I move on to the next step, understand?"

He repeatedly exhorted: "Don't force it!"

"Yes!"

Andrew stood by. Let Fang Qiu go up and ensure their safety.

With Jiang Ning's reminder, everyone was fully prepared. Harrison was the first to go up. He stepped up, his face changed and he looked at Andrew in surprise.

That expression made Fang Qiu and the others hesitate.

"What's wrong? Can't bear it?"

Fang Qiu asked.

"No."

Looking at Harrison's expression, it didn't seem to be too difficult, on the contrary, it seemed very relaxed.

Harrison walked a few steps back and forth, and even jumped twice, Andrew couldn't help being surprised.

no change?

"Gravity hasn't changed."

Gou said, "It's the same as the next stone step."

Of course, he would not doubt what Andrew said. He felt that Andrew was lying to them, but indeed, there was no change in gravity. Different.

“I’ll try.”

Fang Qiu took a deep breath, and went up as soon as he was ready, again without any response.

“What’s going on?”

He exclaimed, “Master, there is indeed no change, is it broken here?”

Andrew said nothing.

He stepped up, and suddenly, terrible gravity was acting on him!

Of course, with Jiang Ning’s current strength, he would not care about these, but it also shows that the Shishanxidi Tier was not bad for Shiyiai’er. It’s just that these gravitational changes are also selectively acting on different people. Body.

“Try it all,”

Andrew said.

The others followed, but there was still no response.

Here, there seems to be a reaction to Jiang Ning, which is very strange.

“No, it’s only Master, you have a role, right?”

Fang Qiu couldn't help asking.

Some of them even continued to walk up a few stone steps without any reaction, and every step Andrew took, the reaction became more intense.

These stone steps are really only effective for Andrew.

Harrison looked at Andrew and didn't know what was going on. This thing is only aimed at Jiang Ning, which is a bit too much.

"Go up first."

Andrew didn't know what was going on.

He walked up with a group of people, Brother Dog and them relaxed, and they could even run and jump without being affected at all. Although he was also unaffected, the changes in gravity were real.

There is no difference from when I came last time.

"Is this prepared for me?"

Andrew couldn't help asking.
