

# The Best Son in Law Chapter 117 – 119

## Chapter 117

Robert Shen is an authentic cultural person who usually likes to turn a blind eye to history and is a bit stubborn in character.

His kind of personality can't stand to be irritated by others the most, so in two sentences, Robert Shen was already angry.

“Outrageous, you are falsely accusing me, I will sue you!” Robert Shen's angry chest was bullying, his voice almost growling.

At this time, Haoden Ye also walked into the crowd, Robert Shen saw him, busy to Haoden Ye, “Little Ye, can you contact Lawyer Jin? These three people have falsely accused me, and they must be held legally responsible!”

When those three men heard the word lawyer, their faces also flashed with panic, but when they saw Haoden Ye, who was dressed in ordinary clothes, walking over, they smirked.

What kind of lawyer does a poor kid like that know? Your own company can be the influence of the lawyer, the lawsuit is not a loss.

The spectators who surrounded them also noticed Haoden Ye at this time, taking a look at Haoden Ye's clothes, and then at his temperament, they sighed for Robert Shen.

Such a poor boy, but he was treated as a savior by Robert Shen.

Some of the students inside the school knew about this son-in-law of Robert Shen, and they were whispering.

“Is this the wasteful son-in-law of Professor Shen? I hear you didn't even graduate high school!”

“Professor Shen is really unlucky that one of your beautiful daughters married such a loser!”

“I’m afraid Professor Shen will be at a disadvantage this time, that Mrs. Li’s husband has assets in the tens of millions, and that Wentai office building north of our school is owned by her husband’s family!”

The crowd was sobbing, none of them were very optimistic about Haoden Ye.

When Haoden Ye walked up to Robert Shen, the three experts were already looking at him with a sneer.

“Professor Shen, if you want to file a lawsuit, we’re not afraid, things come and go, and we’re not as good an expert as you are?”The black-rimmed-eyed one stepped forward with a smirk on his face.

“Dad!What the hell is going on here!”Haoden Ye has basically figured out the situation, the heart can’t help but wonder, Robert Shen is not an expert in treasure hunting, how could this Mrs. Li find him for treasure hunting?

Robert Shen was still in a rage and didn’t answer him at all, but said angrily, “Don’t you know Lawyer Jin?He knows the law, get Attorney Kim here quickly, this man slandered and insulted me!”Finish saying things in a few words.

Today, Robert Shen went to Mr. Li’s office as a guest, and happened to meet Mrs. Li, who came to her husband happily, saying that her father’s jade pendant had been appraised by a jewelry expert at a price of more than 30 million.

When Robert Shen heard that there were millions of antiques, he wanted to take a look at it, but a glance showed that it wasn’t an antique at all, just an ordinary jade pendant.

Mrs. Li was upset at the time, but hindered her husband’s good relationship with Robert Shen, so she didn’t turn on him on the spot.

But who knows, it went viral, the original set to buy jade buyers to hear about this thing does not come, which can make Mrs. Lee unhappy, behind her husband’s back, with Xu experts several people Lai school to find Robert Shen theory.

Haoden Ye listened to the passage, the heart can't help but sink, although father-in-law knows antiques but may not be comparable to these experts, it may be really his father-in-law saw wrong.

Why else would this expert Xu say that the ancient jade is real?The money from the sale of the ancient jade would not be paid to him.

Haoden Ye thought for a moment and said to Mrs. Li, "May I take a look at your jade?"

"Show you?You can't be serious!"

Mrs. Li got annoyed when she heard this and looked at Haoden Ye with disdain, "Even a country bumpkin like you knows how to play antiques?"

Robert Shen had expected Haoden Ye to call Lawyer Jin to come, and got angry when he heard this, glaring at Haoden Ye: "You don't want to lose your eyesight here, hurry up and call Lawyer Jin!"

The surrounding ones also revealed titters of laughter, mocking Haoden Ye's lack of self-importance.

It was true that Haoden Ye didn't know anything about antiques, but he still had a white bubble in his hand that could be used to replicate the jade pendant as compensation to Mrs. Li.

Just at this time, Expert Xu looked at Haoden Ye and sneered, "This friend, you'd better not be busy looking at the ancient jade, first persuade your father so that he won't cause trouble for nothing, and compensate Mrs. Li for her loss by the way!"

Haoden Ye was annoyed, his father-in-law was just commenting on the jade pendant from his own point of view, how do you have to compensate people for their losses?

"Mr. Xu, no matter who is right or wrong in this matter, my father has no reason to compensate!"Haoden Ye said righteously, "I merely want to look at the jade pendant, you can't even satisfy me with this single request, and you still have the nerve to mention the compensation?"

Mrs. Li frowned at this, while the three of them smirked, Expert Xu said, "It's not that we don't dare, but we already know the result after you've seen it, we've all seen Professor Shen's eyesight, can't you see it?"

Hearing his words, the people around him let out laughter.

"You must be telling me the same thing as Professor Shen, or Professor Shen wouldn't be able to get off the stage."

"That's right, it's the same whether you look at it or not!"

Robert Shen at this time also fiercely stared at Haoden Ye, would have been a very simple matter, Haoden Ye can just call the lawyer Jin, how do you let him help a small favor is so troublesome?

"Do what you're told, what's the use of all this nonsense, what do you think I'm calling you for!" Robert Shen was furious, "If you don't want to help, get out of here!"

Haoden Ye saw that his father-in-law was angry, and smiled bitterly, he called Lawyer Jin to come really simple, but he always wanted to determine who was right and who was wrong in this matter.

What if the jade pendant is really fake? What's the use of calling in Lawyer Kim yourself, and dragging people into disgrace with you.

"If Mrs. Li doesn't want to take out her jade pendant, I won't force her! But the compensation is even!" Haoden Ye looked resolute to Mrs. Li.

Mrs. Li's face showed joy when she heard this, "You mean, you'll compensate me if I show you?"

Haoden Ye nodded gently, and Robert behind him became angry and glared at Haoden Ye, "Haoden Ye, you're crazy, he wants tens of millions in compensation, can you afford it?"

For him, tens of millions was an astronomical figure, what if Haoden Ye really couldn't see the problem and asked him to compensate?

Haoden Ye turned his head and gave a reassuring smile to Robert Shen, but he received an even harsher look in return.

With a helpless grin, Haoden Ye turned around at this point, while Mrs. Li had already pulled out her jade pendant and handed it to Haoden Ye, "Look at it!"

As soon as his eyes landed on the jade pendant, Haoden Ye just turned pale!

He didn't know if this jade pendant was real or not, but the shape was simply too weird.

Haoden Ye had studied Feng Shui, and Feng Shui preached the principles of yin and yang and eight trigrams and the unity of heaven and man and so on, and these principles were integrated into every aspect of ancient life, including jade pendants were also very exquisite.

## Chapter 118

The shape of the jade pendant was clearly wrong, rather like it was trying to make the pendant look old and intentionally worn in many parts.

"Mrs. Li, this jade pendant that this expert Xu appraised for you, which era is it from?" Haoden Ye frowned and asked Mrs. Li.

Hearing him ask this, the crowd immediately let out a sound of laughter.

"Don't you want to appraise the jade? Why can't you see that era?"

"What a disgrace, how can Professor Shen have such a son-in-law!"

Robert Shen's face is also very ugly, a person who appraises jade pendants for others, and even asked others which era the jade pendants are from.

"This jade pendant is from the Song Dynasty," Expert Xu's eyes were filled with contempt as he looked at Haoden Ye, his face deliberately making a professional appearance, "Just look at the color and shape of the jade pendant!"

“The Song Dynasty?” Haoden Ye frowned, pinching the lower bar, “This is wrong, the Song Dynasty literary style is in full bloom, the jade pendant is mostly flowers and birds and other elegant things, and you guys are looking at the fast jade pendant, it’s obviously a gore shape, and it’s an inverted gore, if according to the Song Dynasty humanities people like metaphors, does this jade pendant mean inverted gore?”

After hearing Haoden Ye’s words, everyone looked over at the jade pendant, but they saw that the shape of the jade pendant looked truly ancient, but the shape did resemble an inverted gore.

Robert Shen listened to Haoden Ye’s words, and a look of surprise flashed in his eyes as well.

In ancient times, people were very particular about these things, and the shape of the jade pendant, which was carried around, naturally had other meanings.

Mrs. Li frowned at Haoden Ye’s words, and her face looked unconcerned, what’s so delicate about the shape of the jade pendant? It’s going to be worn anyway!

The three of them, on the other hand, looked ugly, and Expert Xu immediately snorted with a disdainful tone, “What do you know! It’s clearly a strong argument, it’s the jade pendant of an ancient warrior general, and making it into an upside down new outfit is just because it’s easy to wear!”

The two ends of the jade pendant are large on one side and small on the other, and it would be reasonable to say that the gore is turned upside down for ease of wearing.

Haoden Ye listened to him but smiled slightly and said, “That’s even stranger, although the Song Dynasty likes hollowed out jade pendants, but shouldn’t the jade pendants worn by martial generals be solid? You know that jade pendant is something that is easy to break, have you seen that martial general’s jade pendant that is openworked?”

Expert Xu was dumbfounded, and his face gradually became more ugly.

“You... you’re all far-fetched, since it’s ancient jade, naturally you have to judge the authenticity from the perspective of ancient jade appreciation, I’m asking you, do you know how to appreciate ancient jade?” Expert Xu looked at Haoden Ye furiously and acted like a righteous man.

When Haoden Ye saw this state of affairs, he couldn't help but be suspicious, Expert Xu was annoyed and angry!

It's really strange, if this jade pendant is fake, why must Expert Xu insist that it's real?

Suddenly, Haoden Ye thought of something, and his heart was not moving!

He remembered reading a news story a few days ago about a man who took a family antique to firm, and the appraisal turned out to be worth millions.

The man was overjoyed, while the appraisal expert then said he could introduce the person to the sale, but had to pay a 200,000 yuan introduction and appraisal fee first, and also told the person that this fee had to be paid.

What's wrong with giving an expert \$200,000 when the guy thinks he's made millions?As a result, after paying the money, the expert had no news, and the man later went to that expert, but the expert said that after the second appraisal, his antique was a fake.

The man demanded \$200,000, but the expert said the appraisal fee was not paid!

In the end, he sued the expert in court, but lost because the cost of the antique appraisal was uncertain, and the expert was adamant that it was an appraisal fee.

Thinking of this, Haoden Ye ignored Expert Xu and said to Mrs. Li, "Mrs. Li, after this Expert Xu gives you an appraisal, is he going to help you find a connection to sell it, and ask you for an appraisal fee and a referral fee!"

Mrs. Li originally didn't believe Haoden Ye, but she was stunned to hear this and nodded subconsciously, "Yes... yes, what's wrong?"

Listening to the two people's conversation, Expert Xu's three faces became extremely ugly, while Robert Shen hinted that he understood something and spoke out, "How much did they want, did you give it?"

Mrs. Li saw his look and felt something was wrong, shaking her head, "They want a million dollars and I haven't given it yet!"

When the crowd of onlookers heard this, many of them guessed what was going on and looked at the three experts in a strange way.

“Huh?What do you mean, we’re lying?I, Xu Youcai, am a respected figure in the antique industry in Dan City, so why would I do such a thing as cheating!What evidence do you have!”Expert Xu had a look of shame and anger on his face, as if he had received a great deal of aggravation.

Seeing him in this state of mind, those who doubted him also frowned.

Yes, he is at least an expert, is it necessary to affect his reputation in this way?

Only Robert Shen has a cold smile on his face, but he knows how deep the water is in the antique industry!

“Huh?If it’s really a treasure, why do you need to ask for the appraisal fee in advance and wait until it’s sold!”With a cold snort, Robert Shen.

This was reasonable, but it was much worse than Haoden Ye’s very sound reasoning, but it didn’t resonate with anyone else.

“You can ask for evidence too, you’re an expert, I can bring in an expert!”Haoden Ye smiled slightly and pulled out his phone to call Principal Zhang.

President Zhang is the president of a university, how can he not know a few experts in antiques?

The call was connected, and Principal Zhang’s laughter came from the other end, “Oh, Xiao Ye, we’re really on the same page, I was just about to give you a call to talk about the Kanji School!”

Principal Zhang had told him before that the Feng Shui Academy had been built, but the name had been changed to Kanshi Academy.

“I’m so sorry Principal Zhang, I called you because I had something to ask you for!”Haoden Ye quickly spoke apologetically.

Principal Zhang is usually busy with work, he is not young, and he still has to trouble him, Haoden Ye felt sorry for him.

“Haha, I definitely have to think about other people’s problems, I definitely won’t hesitate if something happens to you, Little Leaf, you’re the pillar of Feng Shui in our school!”Principal Zhang laughed, “Besides, haven’t you helped me enough?Tell me what’s the matter!”

Haoden Ye bar the matter, which said, “I’d like to ask if you know any experts to come over and take a look!”

“That’s easy, the provincial capital came down a month ago with a few heritage experts, all from the State Administration for the Protection of Cultural Relics, I can get them to come over and take a look!”Principal Zhang did not hesitate.

Haoden Ye thanked him a bit before hanging up the phone.

“Mrs. Li, you wait a moment, a specialist from the province will be here soon!”Haoden Ye smiled at Mrs. Li.

## **Chapter 119**

The three Xu experts immediately panicked when they heard that the provincial experts were coming over.

Expert Xu was annoyed and said, “How dare you insult us like that, Mrs. Li, we won’t introduce you to this baby, sell it yourself!”I said turning around to leave.

Mrs. Li looked a bit flustered at his words, she was certainly more willing to trust Expert Xu than Haoden Ye, but seeing Expert Xu’s behavior, she knew that she had mostly been deceived.

The thought of no Haoden Ye, I’m afraid I’m going to lose more than a million, of course, she heart angry, a pull Xu expert: “You do not go, this matter to say clearly!You two, stop them for me!”

Mrs. Li came with two people from her husband’s company, one is someone to her as a driver, and the other is that she is afraid that Robert Shen will turn the tables on her.

Two people immediately blocked Expert Xu's way, while a few students were also blocking Robert Shen's way.

Expert Xu saw that he couldn't get away, and immediately looked at Haoden Ye with a dark look in his eyes and said forcefully, "What are you guys doing, illegal detention?"

"Oh! Is expert Xu in such a hurry to leave, is he feeling guilty? Or you can simply admit that you were trying to cheat Mrs. Lee out of her money!" Haoden Ye smiled slightly and addressed Expert Xu.

Expert Xu's face immediately became that look, and he said, "Even if the provincial experts come to have what? I'll tell them I'm not as good as the provincial experts who saw it wrong, and they can't do anything about it!"

Twenty minutes later, a limousine arrived at the entrance of the school, and a middle-aged man in his forties, dressed in a white lab coat and with an elegant spirit, got out of the car.

Seeing this person, the faces of Robert Shen and Expert Xu changed slightly!

"Zhao Chunguang!" Robert Shen lost his voice and shouted.

When Haoden Ye saw this person, he also felt a bit familiar, but forgot where he had seen them before.

"Is he Zhao Chunguang, the expert on that treasure hunting show inside the TV station? Real people look so much younger than they do on TV!"

"Yeah, the man is also very handsome, and I heard that their entire family is connoisseurs in antiques, and they run an antique business themselves!"

"If I had been twenty years younger, I would have married him!"

"You don't have to be twenty years younger, I could marry him now if he liked it, look at the way people look, you don't have to talk to know that they're learned!"

Amidst the crowd's gazes, Zhao Chunguang slowly walked over and swept his gaze over the few people inside the crowd.

Robert Shen had a look of excitement on his face, while Expert Xu and the three of them slowly lowered their heads, having a kind of reverence in their legal bones.

Zhao Chunguang swept his gaze around the crowd and quickly landed on Haoden Ye.

Surprisingly, he didn't greet a professor like Robert Shen or a peer like Expert Xu, but walked straight towards Haoden Ye with a respectful look on his face.

"You must be Mr. Ye! Haha, I can't believe you're so young!" As he spoke, he had walked up to Haoden Ye and very respectfully extended his hand to shake Haoden Ye's hand.

Seeing that, everyone was stunned!

Zhao Chunguang's status in the relic world was very high, even President Zhang of Fu Ri University had to be respectful when he met him, and it was unexpected that he was so respectful to Haoden Ye, the trash.

Haoden Ye also looked flattered and quickly said respectfully, "Hello, Teacher Zhao."

"Haha, what to call Mr. Zhao, how rusty, you're Old Zhang's forgotten friend, according to this generation, you can just call me Brother Zhao!" Zhao Chunguang laughed and spoke in a cheerful tone.

Everyone stared at him when they heard his words.

How dare Zhao Chunguang of the Zhao family, the titan of the relic world, call himself a brother to this trash Haoden Ye!

Of course Haoden Ye mentally didn't dare, but seeing the cheerful smile on Zhao Chunguang's face, he was infected and subconsciously shouted: "Brother Zhao!"

Zhao Chunguang's face was even more delighted, laughing, which turned his gaze to sweep the others, "Ye old brother has a relic for me to appreciate, huh, is it that relic, let me see?"

Mrs. Li couldn't wait, although he also knew that Zhao Chunguang's status must be very high, but she is not a person in the antique industry, losing Zhao Chunguang is just face

respect, heard the words quickly pulled out the jade pendant and handed Zhao Chunguang.

Zhao Chunguang, however, didn't pick it up, his gaze just swept over it and said, "Not bad, the color and luster mimic it well, the jade is also real, the inner grain is clear, inside the high imitation world, it's considered an excellent one, if it's sold, it should be worth at least 120,000!"

He didn't even touch the jade pendant before making a direct assertion, yet not a single person present doubted his claim.

Zhao Chunguang has the title of Ghost Eyes in the heritage world because he rarely touches relics and can make identifications using only his eyes.

For a time, everyone looked at several people, and Expert Xu was considered to be thick-skinned, immediately making a righteous face and saying, "Mr. Zhao is right, I was also confused by the luster and color and made a wrong judgment!"

Everyone knew he was lying, it was obvious that he was lying to be exposed, but no one jumped at his words.

Unexpectedly, as soon as he finished speaking, Zhao Chunguang smiled slightly and said, "Truly sorry, if today is just you guys trying to cheat, as a peer, the most I can do is expose you and teach you a lesson, but I was entrusted by Mr. Ye to come here today, so I can't be so polite to you guys!"

After saying that, Zhao Chunguang's eyes became cold, and coldly said: "If an ordinary person might be confused by the luster and color, but as experts in cultural relics, you don't even have the most basic identification ability, the meaning of the jade pendant is obviously not right, and the jade pendant is made of kunlun jade, our country kunlun jade only became popular twenty years ago, before few people used to make jade pendants or as burial objects. And you experts don't even know? Either you have no expert qualifications, or you're just plain lying!"

Hearing this, Expert Xu and the other two paled.

These two admit either one and their future is over!

“I’ve ruled the entire Heritage Authority on my way here, and they’ll dispose of you later!” Zhao Chunguang snorted coldly and turned to Haoden Ye, “Mr. Ye, you see no problem with me handling this matter this way!”

The crowd was surprised again when they saw that he actually asked Haoden Ye what he meant.

Others didn’t know, but Zhao Chunguang knew in his heart that a talent like Haoden Ye could exert more energy than even himself, and his asking Haoden Ye’s meaning was completely a form of respect for Haoden Ye’s talent.

Haoden Ye felt a little embarrassed and scratched his head, “You’re the real expert, you’ll handle this matter!”

Zhao Chunguang nodded in a row, then there was team Robert Shen said, “Professor Shen, today is your aggrieved, it is our work negligence, we will be strict in the future, and this Ms. Li, I also apologize to you here.”
