

Chapter 415

Qin Wenyu gave an order to the domestic helper in charge of the restaurant: "Suzi's bowls and chopsticks are not allowed to be added to the table today. Didn't she not call me mother-in-law, wouldn't she not talk to me and his dad, since she doesn't recognize us, don't serve the table? Eat!

I see who can do to me! "

Qin Wenyu is completely leaning on the old and selling the old.

No one in the family dared not listen. Originally, we counted as the only child for dinner today, but it should be ten people. Now she is missing the position of Suzi.

Putting the tables and chairs together, Qin Shuang was very grateful for misfortune.

She wanted to see for herself how Suzi should deal with herself. She entered the restaurant with priority and took the seat she always sat in.

Greeted the Fu family earnestly: "Grandpa, grandma. Uncle aunt, little aunt and uncle." The little aunt and uncle in her mouth are Joan's parents.

Qin Shuang knew that Joan's parents also hated Suzi.

Sure enough, both of them greeted Qin Shuang at the same time: "Shuangshuang, sit down, sit down."

Everyone knows that there is a missing pair of chairs and chopsticks.

But no one mentioned it, pretending not to know.

The kid Lilly ran over and sat down. When he turned his head, he found a chair.

"Huh? A chair, how do my parents sit?" Lilly said.

The old lady who was sitting on the main seat just noticed it, and then quickly said: "Min Yu, we should add a chair today at home, because there are more people, why didn't you order to go down?"

Qin Wenyu said with a frosty face: "Mom! Look at me, I am really old! I have been worrying about the Qin family for decades, but I haven't been able to respond to my mother-in-law. The servant asked them to add an extra chair." The old lady said immediately: "You are not to blame for this. There are so many people eating at home every day. It is normal for you to forget. Mom knows that Mom gave Suzi the bracelet today. , You think my mother is biased towards Suzi.

Actually, that's not what mom meant.

Mom is also doing well for you. Mom treats your daughter-in-law a little better, so that your daughter-in-law will be filial to you in the future. "

The old lady looked confused, but she was not confused at all.

She wants to neutralize in the middle. Let this Fu family be more peaceful.

After persuading her daughter-in-law, she waved to Suzi and said: "Suzi, although it is not your mother-in-law, but in name, it is also your mother-in-law. Once you enter the house, you stand in front of your mother-in-law and wait for her to eat, how about?"

Suzi: "..."

Just waiting for Qin Wenyu, Suzi absolutely turned around and left.

She has no status or status, but she never bows to her knees.

However, because of that amiable old lady, Suzi hesitated. Besides, what the old lady said was also reasonable. In a family, we must always take care of each other, for the old lady and for his daughter, Suzi ordered. Nod.

"Okay, grandma." After saying that, Suzi walked behind Qin Wenyu.

Qin Wenyu's face was obviously better.

However, when Suzi passed by Qin Shuang and wanted to go to Qin Wenyu Suzi, Qin Shuang suddenly raised her foot to stir Suzi.

"Ah..." Suzi fell down, but was supported by Arron.

"Yes... I'm sorry, I was so embarrassed that I wanted you to serve my aunt. I wanted to take care of my aunt by myself, but I didn't expect to meet you." Qin Shuang said with a smile. Suzi said.

Before Suzi could say anything, Arron suddenly said, "Get out!"

Chapter 416

"Puff..." Qin Shuang laughed out of pride.

She looked at Suzi gleefully, and it was obvious that she thought that if you became Arron's wife, could you sit in the main dining room of the Fu family for dinner?

Do you really think you are Arron's wife?

You took the old lady's bracelet, but the Fu family offended everyone, everyone.

That pair of bracelets should belong to my aunt.

It will be mine in the future!

Are you a woman whose mother and daughter are expensive and want to annex the Fu family's heirloom?

Now it's time to get you out!

After wondering whether Qin Shuang's pride was not satisfied, she followed Arron's momentum and scolded Suzi: "Miss Shen! Fu's restaurant is really not the place you should come to, let you go is already the Fourth Young Master. The most polite way to say to you, oh..."

Qin Shuang didn't finish her words, her eyes and mouth were filled with chili sauce with an angry face.

This chili sauce was originally used as a dipping ingredient in dishes.

Now it's all on Shen Only's face.

Lilly glared at Qin Shuang.

"Oh, it's so spicy, it burns me to death, aunt... Qin Shuang finally opened her eyes, she did not dare to open her eyes with a napkin and finally opened her eyes. The only one who got angry, he shouted at Suzi: "Your good daughter!"

"Go!" Arron had murderous in his eyes.

Qin Shuang: "...Ah, the Fourth Young Master... are you...getting me off?"

"You are not deaf!" Arron said calmly. Qin Shuang was unbelievable: "Four Young Master...I...I live in Fu's house..."

"I'll say it again, get out! Don't let me kick you out." Arron said in disgust.

He didn't kick someone to death on the spot because his wife and daughter were there. He was afraid to scare them. There was also an old lady who was very kind to Suzi just now. The old lady was in her 90s. The shock of the hand.

Hearing Arron's words like this, Qin Shuang didn't dare to say anything immediately, she just looked at Qin Wenyu with a cry for help. Qin Wenyu, whose complexion was just a little better, became even more ugly than before.

She slapped the table suddenly and stood up: "Qin'er! You..."

"Minyu, sit down." At this time, the confused old lady spoke.

Qin Wenyu: "Mom..."

The old lady looked at Qin Shuang with a majestic expression: "You girl with a foreign surname, you have been eating and drinking Lazara in our Fu's house for a long time, right? The world often says that if you are a guest at someone's house, you must act honestly. , Hear nothing of foreign affairs.

It's okay for you, you guest, like a master in my house.

Will provoke the domestic helper.

After a while, I provoke your aunt again.

Our Fu family really can't keep you.

We are eating together as a family, what are you doing? Qin'er is right, girl, please go out! "

Qin Wenyu: "... " Although the old woman is more than 90 years old, she is confused most of the time, but what she said is really unreasonable.

The real outsider at this table is Qin Shuang alone.

Even Suzi is now the young lady of the Fu family, what is she, Qin Shuang?

"Aunt?" Qin Shuang clutched his hot and painful face and looked at Qin Wenyu, hoping that Qin Wenyu could support her at this time.
