

# Chapter 461

However, Siu was obviously directed at her Suzi today. She came to find the fault today because of Lenny?

Or did you come to give Rayna a sigh of relief?

Suzi initially guessed that it should be for Lenny, right?

After all, Siu and Rayna have nothing to do with each other.

At this time, Suzi had to speak, and her tone was still calm: "Miss Jun, I just work poorly. If Miss Jun feels that I am not suitable to work here, I will leave immediately."

"No! No! No!" Siu smiled and shook her head: "You are definitely not a simple Miss Shen who works poorly."

Suzi: "...what do you mean?"

What does Siu know?

Siu leaned into Suzi's ear and whispered word by word: "You bltch, so bold, you went to work at my Jun's company, and you have a set of fake resumes. I think you want Enter the palace and go to jail again?"

Suzi's face suddenly turned pale.

Siu continued: "The dirty things you did in Nancheng six years ago are unknown to the upper class. The reason why they don't know that you are the woman six years ago is because the source of the video was withdrawn. It's very timely. Your name and photos of yours have been blocked tightly. Moreover, because my Brother Arron gave a death order, no one is allowed to spread this. So now, in this office, there is no People recognize you as the stinky woman back then. But that doesn't mean you can hide from me!"

Suzi held his table with one hand, and he could hardly stand still.

She bit her lip: "What do you want?"

"Do you know my sister?" Siu continued to ask Suzi.

Suzi: "I don't know!"

"Ivy, you should know!" Siu said again.

Suzi was taken aback for a moment.

She really didn't remember who Ivy was, but she felt familiar.

After thinking about it, I suddenly remembered that Ivy was a month ago, when she and Arron attended a small gathering of Arron's dead brothers, the new actress who was present, and the female star who asked Suzi to give her shoes.

Looking at Suzi's expression, Siu understood that Suzi remembered who Ivy was.

Siu sneered: "The man Ivy was with that day was my brother-in-law. Originally, my brother-in-law had important things to do that day, but it was all in the hands of your b!tch, b!tch! You not only You smashed my brother-in-law's good deeds and made my sister's good girlfriends and big stars ruin her career. You still seduce my little nephew. Are you trying to provoke the patience of our Jun family? Offended a Arron. Offend our Jun family? You are not afraid that my brother and Arron will jointly send you to Africa and make you a slave girl until the moment you die! And your daughter..."

"What do you want!" Suzi asked excitedly at the mention of her daughter.

She is not afraid of death, nor is she afraid of her dirty or stinky smell.

But the only thing is not.

Suzi knew that during this period of time, Arron treated her very well, and he was even more of a good father image to the only one. However, Suzi also knew the relationship between Arron and Kraig, which was definitely better than Arron's relatives. And Kraig's status is no worse than Arron's status.

Suzi never dared to think that she and the only place in Arron's heart could be compared to Kraig.

She looked pale and looked at Siu with a flustered expression in her eyes.

Siu smiled contemptuously: "First give me a job here obediently, and when I am settled, I will kill you! Remember not to pretend to be like a peacock and think that you are so beautiful. In fact, you show your A55. Is it? Ugly! Dirty! Stinky!"

Suzig held back the tears and let Siu insult her.

"Answer me!" Siu scolded.

"Yes, I see." Suzi obediently agreed. As soon as her voice fell, Siu's cell phone rang.

Siu picked up and connected: "Hey, Lanita..."

## Chapter 462

Suzi: "..."

It was not because of Lenny.

It was the helper Lanita found.

It has been so long since there has been no news of Lanita, Lanita still made a move after all, and pinched her to death like Suzi.

Suzi sneered sadly.

Just watched Siu, who had played the tiger's prestige, leave victoriously.

As soon as Siu left, the office immediately exploded.

"Suzi! Miss Jun Er is a very high-status eldest lady in Kyoto, now I see how you can fight it!" Linda made no secret of slamming Suzi.

"Stepping on us Linda these days, you are really a wicked person who has gotten a bad retribution!"

"Suzi! Do you think that you live in your family? I dare to offend even Miss Jun Er. Tsk tsk tsk... Seeing your obedient and obedient frustration, I am in a very good mood, haha!"

At this moment, even the design director can't help Suzi.

She only patted Suzi on the shoulder, and said kindly: "Suzi, the first time you come to the workplace should be restrained. Men who shouldn't be hooked up can't hook up. Those who work part-time have to do their jobs. Do a job for a long time... I remind you, you really can't resign now. If you want to avoid disasters, you can only let Miss Jun Er have a good time. Maybe you can let you go. . Otherwise, relying on the Jun family's status and the relationship between the Jun family and the Nancheng Fu family, even if you run to the ends of the world, their family will be able to chase you back."

Suzi calmly looked ahead: "I know."

She knew better than anyone that she couldn't run away. That's how she was caught back.

She only begged a hundred times in her heart now, and Lilly should be fine.

She didn't mind working all afternoon.

Linda deliberately came to her to review the drawings, and Suzi had to insist on reviewing. Linda's drawings were full of loopholes, and Suzi really noticed them one by one, and she calmly pointed them out to Linda.

Linda smiled contemptuously: "At this time, you can still think about the artwork. I think you are also a grasshopper after autumn. I won't change it!"

Whether she changed or not, Suzi naturally did not care about it.

Suzi just wants to get off work now.

As soon as the off-duty time came, she grabbed the bag and left.

As soon as I went out, I met Galia.

Galia looked at Suzi with concern: "Suzi, Miss Jun Er is a hundred times more difficult to provoke than Rayna. Now think about what Rayna is? But if Miss Jun Er wants to ban you in Nancheng Just because of the relationship between Kraig and Arron, you can be blocked to death, Suzi, why is God so unfair to you?"

At this point, Galia's eyes are red: "They are too bad! Who did you offend? You didn't offend Rayna or provoke Lenny. They provoke you first, so why now? Do this to you! This world is really unfair to poor people like us who have no background. I think they are jealous of your beautiful appearance."

Suzi smiled when Galia cried and blushed with small eye circles.

She has experienced too many things.

She has been in foster care since she was young, in university, and in exile for six years. These experiences have long made her a very calm person. When the sky falls, she will not panic.

Suzi in turn comforted Galia: "Okay, little beauty! You see your nose is red when you cry, you cry for me like this, everyone in the company looks at you, you stand on my side like this, don't be afraid They blocked you?"

Galia shook his head: "Not afraid."
