

Chapter 231

My pro-grandpa!

I am now my grandfather's most beloved granddaughter.

Suzi, you want me to die, you want our Lin family to die, you just dream. "

"Master Shu? Is he your grandfather?" Suzi looked very shocked.

She really didn't expect this.

At this moment, she finally understood why Lanita was so domineering

She is backed up.

"Yes! I'm my grandfather." Lanita looked at Suzi proudly with such a ferocious jealousy.

Six years ago, when Arron and Lanita regretted their marriage and put Lanita under house arrest in the Lin family to let her have a child, the entire Lin family fell into a kind of infinite fear, because Lanita knew the child in her stomach. It was not Arron's at all. As long as the child was born, the Lin family would definitely die.

Just when he was desperate, Mr. Shu came to the door.

To this day, Lanita still clearly remembers the situation of Elder Shu's arrival that day.

There were no less than 20 luxurious black vehicles parked outside the Lin family's house. Elder Shu was escorted to the Lin family by four bodyguards. Jarod and Moira were shocked on the spot.

They thought it was the Fu family who asked Elder Shu to act as the middleman and directly leveled the Lin family. However, after seeing the Lin family of three, Elder Shu asked solemnly: "Jarod, do you have an ex-wife?"

Jarod was frightened, and he said tremblingly, "Yes... there is such an ex-wife, no...no, she's not my ex-wife, Shu... Elder Shu, what do you want, please... Please speak straight."

"Is this a woman?" Elder Shu asked, taking out a photo of his daughter when she was young.

Jarod recognized the woman with just one glance. He dared not lie, so he nodded. Then he asked cautiously: "Why, what's the matter with Mr. Shu?"

"This is my daughter. She is..." At this moment, the originally solemn-faced old man Shu's tone was extremely old: "She...Excuse me, is she still alive? Where is she now?"

Jarod was shocked immediately.

The woman in the photo turned out to be the daughter of Mr. Shu?

God!

Jarod only felt that the world was spinning.

Could it be that God really wants to destroy their Lin Family? This really means that there is Arron before and Elder Shu afterwards.

Their Lin family wants their family to be destroyed!

However, just when Jarod was dizzy and pale, Moira, who was paralyzed on the ground, said suddenly: "Ah! You... So you are... You are Yueyue's grandfather."

Jarod + Lanita: "..."

Elder Shu who was about to continue to inquire about Jarod also looked at Moira blankly: "What did you say? Yueyue, who is Yueyue?"

At this time, Jarod had already reacted instantly. He quickly wiped off the sweat on his head, then knelt down in front of Old Man Shu and cried out: "Dad..."

Dad?

Old man Shu looked dumbfounded.

Jarod cried and said: "When I picked up Yueyue's mother, I was also a poor boy. Yueyue wore a beggar's clothes. She was hungry for several days without eating. She lived in mine. In the dormitory, within a few days, we...weave a wedding ring out of straw and get married.

Then there was Yueyue, but we were too poor at the time. As soon as Yueyue was born, Yueyue's mother bleeds away..."

Lanita is also an acting performer. She knelt and crawled to the front of Elder Shu: "It turns out that you are my grandpa, grandpa..."

Chapter 232

Elder Shu looked down at Lanita: "Lanita, are you that Yueyue? The child left by my daughter?"

Lanita's tears burst into tears: "Grandpa, you are my mother's father. They all said that my mother is a beggar. It turns out that my mother has such a respectable father?

But grandpa, why was my mother a beggar back then? "

Lanita knew a lot about her father and the woman before.

When Jarod picked up the woman, the woman followed Jarod with all her heart, but Jarod was living with the woman, and after taking some of the broken jewellery in a small cloth bag she carried with her as her own, she The woman drove out of the house.

Later Jarod and Moira married.

Later, when Moira couldn't have children, they adopted Lanita, who was just over one year old at the time. Because it was brought back and raised more than a year old, in the eyes of Moira and Jarod, Lanita is no different from her own.

The family of three has always been very nice.

But after more than 20 years, no one thought that the woman who was kicked out of the house by Jarod was actually the biological daughter of Elder Shu.

And that woman...

The Lin family of three tacitly told no one.

Lanita was the one who saw the wind make the rudder's mouth sweet. At this moment, she only cried desperately, desperately to please Mr. Shu, desperately complaining, how hard was her mother when she gave birth to her. , Wait. In just a few minutes, Mr. Shu burst into tears.

When he bowed his head and bent over, just as he was about to help Lanita up, Elder Shu saw Lanita shed blood.

"On the ground... why is there so much blood on the ground?" Old Man Shu asked with a change of expression.

"Ah!" Lanita was shocked when she saw her blood gurgling out.

In fact, in the past two days, she felt a faint pain in her lower abdomen, and she already had a bad feeling.

Before that, she secretly went to a private hospital for a gynaecological examination. The doctor told her that she was pregnant at an untimely time because she had an abortion before, and her body was not well maintained. Later, she accidentally became pregnant, and she was still pregnant. There are some visceral diseases caused by improper points. Before the disease is well, the stomach is not suitable for raising a baby.

But at that time, Lanita urgently needed the child in her belly to tie Arron, she kept begging the doctor to prescribe the best fetal medicine for her. You should rest in bed at home every day, not getting out of bed, not standing, but lying down.

Even so, at the time of birth, there is no guarantee that he will be a healthy child. "

Lanita didn't tell anyone about the results of such an inspection, and she didn't even dare to tell her parents. She just wanted to get married to Arron soon, and Arron fell asleep soon. In this way, whether it was the child's fall or the condition of her body, she would have an explanation.

Lanita has always believed that a man like Arron must have had a lot of women in the past. Who knows which one is sick or not? Which accidentally infected Arron, and Arron infected her again?

However, Lanita did not expect that Arron would not touch her at all.

Not only didn't touch her, but didn't even marry her.

Just put her under house arrest and let her have a baby at home, Lanita almost frightened her, and forgot to take the fetus medicine. Due to the fright, she got together for various reasons because she didn't take the fetus medicine, which caused her to kneel down. At this moment, the child in the belly finally did not save.
