

# Chapter 235

Using your grandfather to scare me, do you scare me as Suzi? "

"Haha!" Lanita smiled more frantically: "Suzi, my grandfather's old department is all over the country, and many of them are border guards at the border. Then my grandpa will send you to the border in a rage.

Then output it again.

Do you know what will happen to you?

It's the kind of place where you don't care, where there are war dealers, all kinds of desperadoes, and you will be tied to a tree by them, and you will not be clothed.

Every day there will be hundreds of people in line waiting to consume you.

Until you die from exhaustion! "

Suzi shuddered involuntarily.

Lanita was even more proud to see Suzi like this.

However, Suzi just shuddered, and then sneered: "It doesn't matter, as long as your grandpa can take me away, take me away! Lanita, you are here to just play with me, you know you What does it look like?

Like a child who can't beat others and can only show off, it's very pitiful!

Sorry!

Is your fiance, your man, your husband?

I fell asleep first!

See you no more! "

After speaking, Suzi turned around and went in. She was originally going to find Shen the only one, but now that Lanita was blocked outside, Suzi could only go back and hide for a while.

However, as soon as she entered the house, she received a call. It was a landline number. Suzi didn't know where it came from. After a little hesitation, she connected again: "Hello, hello, who?"

"Mom." On the other end, there was Shen's only cautious, extremely low voice.

"The only, the only, are you the only one, where are you? Hurry up and tell your mother where you are?" Suzi burst into tears.

At the other end, Shen's only voice was very small: "Shhh, mother, keep your voice down. Mom, are you better now? That stinky villain said that you are not feeling well. You must lie on the bed to get better, so in the morning I I dare not call you, mom, can you walk now?"

Suzi wiped a tear: "Mom is fine now and the only one. Tell your mom, where are you?"

Lilly still said quietly: "Sorry mom, I didn't intend to go to work with the bad guy in the morning. I wanted to protect my mother. I am looking at the bad guy in a big company. He will be very busy. If you don't have time to go home, run, mom, and I will hold the bad guy. When I go out with the bad guy in the morning, I think about it. I will hold the bad guy and let mom run."

Suzi: "... " At this moment, she cried silently.

No!

She can't run!

Even if she died, she would die with her only daughter.

"Only, you are in the company of the stinky villain, right?" Suzi asked.

"Yeah, right mother." Lilly said bravely.

"The good one, you hold the stinky villain, mom will run now." Suzi coaxed her daughter.

After closing the line, she ran out in a hurry. The servant behind did not call her again. Suzi ran out of the elevator and ran out of the community. When she was about to intercept the taxi for a while, she was caught by two people. Forced into the black car.

Suzi took a closer look and asked in horror: "What do you want!"

## Chapter 236

Lanita smiled viciously: "Huh! What do you want, are you afraid? Suzi! Guess, will I give you to other men next minute?"

After finishing speaking, Lanita looked at the four five-big-three men in black with a cold face in the car, and asked frivolously: "Zhang, Li, Two, Zhu, Three, Kings and Four, you four have followed my grandpa for the rest of my life. People are very strict with subordinates. I guess you do things under his hands and haven't played with women much. How about it. Now I will give you four big gifts, how about?"

Four bodyguards: "..."

The quality of the four bodyguards is very high, and they are all discerning people. Otherwise, they can't be the four bodyguards around Elder Shu. Although they are not in the upper circle, they follow Elder Shu one or two. After ten years, they can naturally perceive a lot of things.

The woman who was looted in the car was a woman who came out of Arron's high-end residence. Even if Arron said a hundred times that he wanted to

smash this woman into pieces and tortured this woman to death, it was all Arron's business.

Arron can torture this woman. If others dare to touch this woman, then this person simply doesn't want to live.

Lanita couldn't figure out what the bodyguards could figure out.

The four bodyguards all hated the granddaughter who Grandpa Shu had recognized for six years!

Everyone does not mention the qualities of a lady, she is still very vulgar.

Still hypocritical.

Most importantly, Lanita still couldn't figure it out!

However, no matter how clueless they were, the four bodyguards wouldn't dare to confront Lanita. They could only not speak together.

On the contrary, Suzi, who was panicked and afraid at first, calmed down after a minute or two. Although Suzi was surrounded by four fierce men, she was not afraid anymore. Instead, she calmly looked at Lanita and sneered: " Lanita, I was captured by Arron to pay his debts. Not only did he want to torture me to death, I also owed him a lot of money. He wanted to use my body to earn back the money I owed him. If you car The four big guys here turned me into a mess, and Arron can't make any money. When he asks you, you won't be able to blame others.

I don't care.

Anyway, I have to use this body to accompany a man. Don't you guys want to play?

Come on! "

Suzi gave up, she just wanted to put it to death and live afterwards.

Lanita: "..."

She naturally understood this reason, and she also knew that Lanita could not move the person Arron captured, but Lanita had already boasted to her best friend group, and her best friend group knew that this time Arron Catching Suzi back is to avenge her Lanita.

Lanita's girlfriends group also knew that as long as Arron captured Suzi and reported the humiliation that disturbed the marriage, Arron would still marry Lanita.

As a fiancée, you don't want to play with a doll as you want.

Lanita sneered: "Suzi, don't be afraid. Even if I let these bodyguard brothers play with you, they are reluctant, because they think you are dirty. I will bring you out just to give me some Good girlfriends introduce you to meet.

After all, you can be regarded as my righteous sister in our Lin family, aren't you?

It is only natural for me to introduce my long-lost sister to my girlfriend.

I am also good for you.

Don't you want to pay back my fiance's money? My girlfriends might be able to introduce some guests to you in the future. "

Suzi: "..."

She knew that today she was humiliated in front of Lanita and her rich girlfriends. Lanita was Arron's fiancé and Shu family's granddaughter, even if Lanita tortured her to death, Arron Maybe she won't help her, right?

But Suzi can bear it.
