

Chapter 251

The little secretary immediately pushed the door in, and after that, she was also stunned. The president sat upright in his exclusive chair.

And there was a woman sitting on the president's body.

The woman is dressed in the president's suit, and her tousled black hair is buried in the president's shoulders and necks. The woman's hands encircled the CEO.

The little secretary is not stupid.

Although she couldn't see what a woman's face looked like, she knew that the relationship between this woman and the president was inseparable.

The little secretary has worked in the Fu Group for three years. During the three years, she has come to the president to sign a contract every day, but she has never seen a woman in the president's office, let alone a woman sitting on the president in this way. Up.

The little secretary immediately realized that it was not the right time for her to knock on the door, she immediately stammered: "Yes... I'm sorry, the president, I... I don't know that my wife is..."

The little secretary dared to conclude that the woman sitting on the lap of the president must be his wife, she must be a wife!

How rigorous the president's work style is. There are nearly 100,000 employees in the company, and none of them don't know.

For six years, the president has always been a non-female president.

Suddenly there are women and women appearing at this moment, it must be an extraordinary identity.

What's more, the president brought his daughter to work this morning, and he deliberately convened a meeting of all the employees, and then took the little princess's hand to announce to the whole company that this is his daughter, Arron.

He is the highest authority in the future of the Fu Group.

I just brought my daughter here in the morning, and now just after Zhongwei, there is an extra woman in the office of the president who is so close to the president. This woman must be the little princess's mother!

Therefore, it is naturally the wife, who can't be wrong.

"Yeah!" The president did not look up at the little secretary, but calmly said: "From next month, your salary will increase by 5,000." The little secretary's surprised eyes will not turn: "Thank you, thank you. President."

"Bring it." Arron said.

"Wh...what?" the little secretary asked in a daze.

"Isn't there a contract for me to sign?" Arron asked.

"Um, yes, yes, the president, here." The little secretary immediately placed the contract to be signed in front of the president respectfully.

Don't look at the president holding his daughter-in-law in his arms, but it doesn't affect his signature.

The president handily picked up the golden pen and brushed and signed the contract. He signed the contract extremely smoothly and very calmly.

The little secretary looked dumbfounded. At this moment, she was impressed by the president. At the same time, I also admire the envy of the president's wife, who is held in his arms by the president, and want to become a fan of the president's wife.

The little secretary wanted to ask the President's wife for experience, so how did the President's wife take the President out of a man who was cold-faced? Please help her to capture a small executive or something in the future.

These are all thoughts in the mind of the little secretary.

She did not dare to stay one more minute after signing.

Because, although the president doesn't change his face and his heart beats, the people in the president's arms have been shivering all the time, and they don't even dare to breathe.

Seeing the president's wife frightened like this, the little secretary suddenly smiled. The wife is so courageous, and the wife's face is thin. Although the little secretary hasn't seen what the wife looks like, she unilaterally thinks that the president is sure. She is a gentle and beautiful lady.

The little secretary almost ran away from Arron's office, and by the way, he closed the office door very understandingly.

Moreover, a sign was hung outside.

"The president is resting, please don't disturb."

Chapter 252

This half afternoon, many senior executives of the company have come to Arron, either because of the contract or the project. However, whenever they see the sign hanging on the door, they think of today. The little nanny that the president brought over in the morning.

Everyone is smart.

It can be imagined that since the little milk baby is here, the little milk baby's mother will naturally follow.

When Suzi finally woke up, it was because she and him had moved to the window of the inner room. This was a high-rise building on the sixth or sixth floor.

Suzi even felt that she used to say that she was disguised. Only at this moment, she was the real herself. She felt that the real herself was too shameless, and she was so shameless that she looked down on herself.

But this kind of self was unearthed by Arron.

Suzi was awakened by a cool breeze.

The woman shyly immediately let go of her arms around the man's neck. At the same time she let go, she lay on her back, and the man immediately freed her hands to clasp her back and head.

"Do you want to throw yourself to death!" the man roared.

"Let go of me! Please let me go! Isn't it okay to let you fall to death! It's better to fall from this building and smash to pieces!" At this moment, Suzi just wanted to escape.

First, she was worried about Lilly, and she was afraid that Lilly would come back and bump into herself like this.

In both cases, she did not have the face to meet people. The reason why she came to the Fu Group and Arron's office was to find Lilly. Why did it become like this in the end?

Suzi really doesn't want to live anymore!

However, she was very stubborn and wanted to leave him and walk out, but she didn't even take a step, so she sat on the ground.

She couldn't even get half of her strength to make the man reach out and fish her up, fished her into her arms, and said calmly, "You came here by yourself!"

Suzi: "..."

The man took out a men's shirt from the closet and put it on her. Then he put her on the bed and said blankly: "Get a good rest."

After he finished speaking, he closed the door and went out to continue his official duties.

Suzi was left alone on the single bed in the inner room, crying without tears.

She didn't know where she had fallen from a piece of clothing that she had worn from home. Within a day, he wanted his subordinates to buy two pieces of clothing for her. This was really ridiculous.

But Suzi couldn't do anything.

Even later, Lilly came back with Christopher to eat steak, and brought back a string of grilled shrimp and a piece of toast to Suzi, but Suzi couldn't eat it.

Christopher was very aware of current affairs and did not enter Arron's office.

Christopher only put Lilly at the door of the office, and said gently: "Little princess, this office is a private space for you, your parents and your family of three. Uncle Yan is not easy to go in again. I knocked on the door. Will you go in alone to deliver food to your mother?"

Lilly raised his chin: "I also think, Uncle Yan, you shouldn't disturb our family of three."

Christopher: "..."

To be precise, no one can disturb the world of both of them, okay!

It's just that you are a little princess, no matter how you disturb them, they can't do anything to you!

Christopher smiled at Lilly, and then knocked on the door.

"Who!" There was an angry tone inside.
