

Chapter 317

Shen Wei immediately hid in Arron's arms in fright.

She flinched in her father's arms, but did not forget the wrongdoer:
"Yes...yes...it was Qin. Aunt Qin asked me to put this hat on you, Qin. Auntie said you like the green tortoise cap the most, and the colorful paintbrushes were bought for me by Aunt Qin. Oooooooo..."

After speaking, Lilly lay in Arron's arms and cried.

In fact, Shen is only laughing.

She couldn't help it anymore, she had to giggle, okay!

Otherwise it will be suffocated to death.

In Shen Only's heart, although the badass father is very bad, Shen Only now doesn't hate the badass father more and more, and Shen Only does not allow any woman to snatch his father from his mother.

Although the badass father and mother look at each other like enemies now, even if they are enemies for a lifetime, Lilly doesn't want any third party to intervene between her father and mother.

Shen only wanted to do everything possible to drive away the woman by his father's side.

No one can stay.

This time, she kills two birds with one stone.

Although at this moment, the five-year-old Lilly still doesn't describe her approach as 'two birds with one stone', but she roughly meant it.

She wants to get rid of all the women clinging to the badass father for her mother!

The badass dad can only be his mom alone! Humph!

Lilly rolled his eyes and smiled uncontrollably in Arron's arms. If outsiders didn't listen carefully, he really thought Lilly was scared to cry.

Arron didn't expose Lilly, so he had no choice but to watch the little troublemaker in his arms silently.

Just watch the show.

The planted Qin Shuang was stunned. She tremblingly pointed at Lilly, and stammered: "You dead child, how can you be so wronged?"

"Miss Qin!" Lanita, did you give this kid the paintbrush?

Qin Shuang: "..."

Lilly turned around from Arron's arms, wiped his eyes with his hands, and cried and groaned: "Aunt Qin, it's not the mother you just mentioned. If you are willing to be my mother, you will be very good to me, you say After you marry my father in the future, you will definitely love me very much..."

Qin Shuang also said viciously: "Little ba5tard girl! I meant to marry your father, but I didn't let you draw a green turtle for Miss Lanita to wear! Didn't you just say you make a handmade gift for Miss Lanita? Is it for your grandfather? How did you transfer it to Miss Lanita!"

"Puff..."

"No, Fourth Master Fu is Lanita's fiancé, and you also want to be Fourth Master Fu's wife, then you are just putting a green hat on Miss Lanita."

"This little girl is very good."

Many of the guests present couldn't help but laugh out loud, and some even talked blatantly.

"Qin Shuang! I will make your hair bald today!" Lanita grabbed Qin Shuang's hair.

Chapter 318

There was a sudden chaos in the hall.

The guests who came were surprised and could not speak.

Even the Patriarch Fu, who was sitting at the top, was stunned.

After all, it was Lanita who had Grandpa Shu as her backer. Except for Arron, she is really not afraid of the sky, and because of the presence of her grandfather today to support her, she wants to covet the woman who covets Arron. Get rid of them all.

Cuckold her brazenly to tease her, she will naturally not let this woman named Qin Shuang go!

A pinch of Qin Shuang's hair was slapped off by Lanita, and the painful Qin Shuang screamed. In anger, Qin Shuang raised her foot and stepped on Lanita's foot. Lanita's little toe was suddenly stepped on by Qin Shuang. Broken.

"Aw..." Lanita fell to the ground and cried, her hand gripping Qin Shuang's hair more ruthlessly, and the two of them rolled on the ground and tore.

"You savage woman, dare to snatch my husband from me. I won't be called Lanita if I don't kill you today!" Lanita roared.

Qin Shuang also wailed again and again: "Dead woman, let go of my hair! My aunt is the mistress of the Fu family, you beat me today, you don't want to

escape from the Fu family, you are not married to Fourth Master Fu, I Why can't you snatch it? You have waited for Fourth Master Fu for six years, but he didn't marry you! If you want to marry Fourth Master Fu, you will never dream of it in your life! It's just you like a bitch, let alone marry Fourth Master Fu. , You are married to a tramp on the street, and you are not necessary!"

Qin Shuang cursed Lanita while also grabbing Lanita's hair.

The two women rolled back and forth in the lobby of the Fu's old house.

The people watching were frightened, everyone forgot to stop them.

Of course, Arron didn't forget.

Although this is the Fu family, Arron has lived here for a very small amount of time. Even if he lived in this house with corned eaves for a few years, it was an unhappy memory.

Therefore, Arron has no feelings for this house. As for what happened in this house, unless it was a matter of life and death, if not, the two women tore their hair here, they were not afraid of making a fool of themselves, what did it have to do with him?

On the contrary, Lilly, who was lying in Arron's arms, was really frightened at this moment.

She just wanted to play a prank and wanted to defend her mother's man, but she saw that the two people tore their hair and tore each other's heads were bleeding, and when Lanita's toes were bleeding, Shen Tongyi was really scared this time. He drilled straight into his father's arms.

She couldn't help but shouted: "Dad, I'm afraid..."

"Christopher!" Arron suddenly shouted angrily.

"Four Lord, here!" Christopher rushed in in response. As soon as I came in, I saw two women tearing each other in the hall, as well as guests looking around.

It also includes Qin Wenyu, and Mr. Shu.

"Four Lord, this..." It was too horrible.

Women tore each other, so sober is much less imageless than the rush between men. It's really ugly, so I can't bear to look directly at it.

Christopher felt spicy eyes.

"Throw these two women into the river and feed the fish!" Arron said blankly.

Christopher: "..."

The two women suddenly stopped tearing each other. They looked at Arron together. The people in Quan'an City knew all about Arron's methods. He was not joking.

It's not to scare people.

Lanita's face was bloody, she couldn't stand up because of headaches in her toes, and she cried and cried, "Four Lord..."

Qin Shuang also looked at Qin Wenyu with a slicked face: "Aunty..."
