

The Return of the God of War [The Protector]

Chapter 2661 - 2670

Chapter 2661

“Yeah, you have to be strong, and we can hate you when you are strong! You are weak like ants now, we torture you and kill you can’t get any pleasure!”

...

Everyone’s thoughts are the same.

Levi Garrison is too weak now.

There is no sense of accomplishment at all.

Levi Garrison was happy.

“Then you can try!”

Levi Garrison smiled.

“Don’t worry, what you once brought to us will definitely be returned! Especially the thing that you flew in and out of the Eagle Nation alone, we have to restore it back!

Wait, in the near future, there will be a world-destroying powerhouse from the War Eagle Nation suddenly come to Daxia, do what you did in the War Eagle Nation back then! “

Agent Black Hawk said.

Levi Garrison’s heart was shocked.

In recent years, the Eagle Nation has been too low-key, and he has a little ignored.

They must also be laying out.

They have always been known as the most powerful force on the planet.

Their dream of dominance must have been there.

Maybe this enemy is stronger than the Lab of the Gods.

In the past, the War Eagle Nation and the Lab of the Gods were not subordinates, they were a cooperative relationship.

To put it bluntly, for Levi Garrison.

Just two powerful enemies!

not good!

Levi Garrison's face changed.

Are they going to repeat what they did in the Eagle Nation?

Then this person is super strong!

But Levi Garrison had observed the god list.

There is no such character in the war eagle country on the god list!

It is estimated to be the dark sign of the war eagle country.

This is the most terrifying point.

The dark web claims to have collected all the powerhouses in the world.

It seems that there are still gaps!

Um?

wrong!

Is it behind the stele?

Many names are engraved on it!

Levi Garrison knew about it.

But most of them don't know.

He always thought it belonged to the laboratory of the gods.

But now I think it might not be!

It is a group of heterogeneous beings who are beyond the gods.

Among them, I am afraid that there is a transcendent existence of the War Eagle Nation!

It seems that you have to check all these people when you go back, anyway, the list is in Levi Garrison's mind.

At this time, Levi Garrison feels in danger

But the good thing is that the powerful hidden danger of the war eagle is known in advance.

It can be dealt with in advance.

Chapter 2662

It won't happen suddenly, you don't have any preparations on your side.

"Don't worry! It will be spectacular and tragic!"

Agents Black Hawk smiled.

They are already looking forward to that scene.

“Don’t talk nonsense, let’s talk about it, why did you catch me? It’s not like killing me against me...”

Levi Garrison asked.

“Of course! Killing you is too ridiculous! I want you to see Da Xia being killed insane!”

Agent Black Hawk sneered: “I caught you in exchange for the seventeen subordinates I was arrested in Daxia!!!”

“It is said that you are like this now, and your status in Daxia is particularly high! It would be great to replace people with you!”

At this time, Levi Garrison finally understood why he was arresting himself.

It’s a substitution!

Also know that your status is particularly high?

It must be because stealing artifacts in Kunlun Academy is nothing but making others feel that they have a high status.

But it must be the spies from the Lab of the Gods who sent this message.

Thinking about it now, the Sky Shield Bureau and the Lab of the Gods must be cooperating.

It was a suspicion before, but now it is a real hammer.

This is equivalent to a home delivery by Tiandeng Bureau.

There is no need for Levi Garrison to look for it by himself.

“Ha ha ha ha.....”

Levi Garrison couldn’t help laughing.

Everyone was stunned.

Can he still laugh?

What is he laughing at?

Everyone looked at Levi Garrison in confusion.

“Why? Are you ridiculing the fact that you can change people?”

Black Hawk asked.

Levi Garrison continued to laugh.

The Tianshield Bureau delivered it to the door on its own. What else did the seventeen people do?

Those seventeen people are the subordinates of Black Hawk.

Interrogating them for a long time, at best, it was just to confess the Black Hawk.

Now the Black Hawk and even the Sky Shield are in front of them.

Seventeen people are the same whether or not.

So Levi Garrison was laughing at this thing.

“Call me Kunlun College immediately! Tell them about the exchange!”

The Black Hawk arranged immediately.

Soon, they contacted the superintendent Tiance.

Asked to release seventeen people to exchange for Levi Garrison.

As for why Levi Garrison was arrested, the reasons given were also absurd-Levi Garrison might endanger world peace.

Tiance Shenshuai also laughed.

Chapter 2663

He also said why Levi Garrison had disappeared.

It turned out to be taken away by this group of people.

“At least let me know that the king is alive side by side, right?”

On the communicator side, Tiance Shenshuai said.

Heard this.

Black Hawk they breathed a sigh of relief.

It was also certain that Mr. X did not lie to them.

Levi Garrison’s position is indeed very important.

Substitution is imperative!

“Come on, tell him!”

Black Hawk handed the communicator to Levi Garrison.

Tiance Shenshuai asked: “Change or not?”

“Of course, change! Do you want to see me die in their hands? Hurry up! Hurry up! Send people back!”

Levi Garrison urged.

In the eyes of the Black Hawks, they looked like they were afraid of death.

“Okay, got it! Come on, I’ll talk to Tianshield!”

The superintendent Tiance understood what Levi Garrison meant.

This sentence came out.

He knew that these seventeen people were totally useless.

“Tiance, the supernatural commander, you first send the seventeen people back. After confirming that they are correct, we will release Levi Garrison!”

Black Hawk said.

Tiance Shenshuai deliberately said: “Ah? Then you won’t regret it? I sent the people, but in the end I sent Daxia side by side with Wang Zhen.”

“Don’t worry! He is too weak for us, he can be caught all the time! I won’t fail to keep my promise!”

Black Hawk looked at Levi Garrison with disdain.

In their eyes, it is indeed the case.

Anyway, Levi Garrison was too weak, and he would catch him whenever he wanted to.

There is no need to do anything to lose face.

What’s more, he still wants Levi Garrison to see the next thing alive...

Levi Garrison has been closed for a while, and it doesn’t mean anything.

The plan of the Sky Shield Bureau was to release Levi Garrison next and then catch him back.

Then let it go, and then catch it back.

Provocatively despised Levi Garrison and Daxia again and again!

This is much more interesting than staying closed all the time.

After the negotiation.

The superintendent Tiance immediately found the seventeen agents who had been arrested.

Send someone to send them back to Warhawk Nation!

About seven or eight hours later.

Seventeen agents successfully reached the War Eagle Nation and were picked up by the Sky Shield Bureau to the designated location.

It is confirmed that they have not been interrogated, and no information has been disclosed.

The Sky Shield Bureau, especially the Black Hawk agent, let out a long sigh of relief.

Chapter 2664

He must not expose any information in the Lab of the Gods...

Never let the world know that the Lab of the Gods still exists...

“Next, it’s time for us to let go!”

Agent Black Hawk returned to the base where Levi Garrison was detained.

He rushed his hand and ordered: “Open the locks on him! Send him back to Daxia!”

At this moment, Levi Garrison smiled mysteriously at them suddenly.

“No trouble, I’ll open it myself!”

As soon as the voice fell, Levi Garrison tried hard.

“boom!”

“擘嚟!”

“哐啷!”

The terrifying force directly shattered the locks that Sky Shield Bureau thought “it would be impossible to open it anyway.”

Shattered before everyone’s eyes.

The scene suddenly became quiet...

Agent Black Hawk was stunned.

Agent Blade was stunned.

The polar bear agent was stunned.

...

Everyone present was stunned.

Everyone’s eyes are cracked, their scalp bursts, and the whole person is going crazy.

Oh my god!

Oh, God!

What did they see?

What did they witness?

Is all this true?

Are you dreaming?

“Papa.....”

Others slapped themselves severely.

Make sure you are not sleeping or dreaming.

All this is true!

“Really, my God, all this turned out to be true!”

Unbelievable!

unimaginable!

No one knows the horror of this shackle better than them.

This lock is the trump card of the Sky Shield.

He actually has nothing to do with the Lab of the Gods.

It's Tianshield's own thing.

As for the technology, I don't know where Tianshield got it.

It may also be developed by yourself!

The material is even more rare!

You can't find it in the world at present!

I don't know where the Sky Shield Bureau got it.

But they have done a lot of testing.

Once a person is locked, it cannot be opened at all without the help of external force.

Chapter 2665

When Chen Kong wreaked havoc before, they tested according to Chen Kong's power.

Can't open it!

Therefore, as long as they are trapped by these locks, even the top three powerhouses of today's gods will not be able to break free.

So this shackle is their treasure of the town.

But the difficulty lies in if the locking device is installed on another person.

This is the hardest point...

Over the past few years, the Sky Shield of the Eagle Nation has been extremely low-key.

This trump card will never be exposed.

Therefore, the shackles were named "Kisshen No. 1" by them.

But what do they see now?

Levi Garrison's wrists and ankles used a little bit of force, and he directly shattered the "Kisshen No. 1".

What powerful force must this be? ? ?

unimaginable!

God descends?

Was he shattered?

Can someone shatter this material?

Unheard of!

Can this device be broken?

Unbelievable!

wrong!

Isn't this Levi Garrison?

Isn't he not even on the quasi god list now?

This strength?

Are you sure you can't make it to the quasi god list?

This power can't hold him on the damn god list!

He is above the gods list!

Who gave the fake information?

Who said Levi Garrison couldn't do it?

Can everyone be bullied?

Want to catch people back again and again?

Why did you catch it back?

Do you have this qualification?

"boom!!!"

Everyone's heads are going to explode.

I want to understand some things.

Especially the eight agents who had arrested Levi Garrison.

Finally understood why Levi Garrison didn't resist at the time.

Follow them obediently.

That is because he deliberately.

Deliberately caught by them, let's see what happened.

be cheated!

Agent Black Hawk even thought that the 17 of his men were actually caught by Levi Garrison.

He even thought of the conversation between Tiance Shenshuai and Levi Garrison.

Tiance God Commander was actually not to see Levi Garrison alive, but to ask for his opinion.

He even understood what Mr. X said-why Levi Garrison still has a lofty status, that is because of his true power.

...

Everything is figured out!

Understood!

It seems that there is no interrogation of 17 people, but in fact, all of them are exposed here.

Chapter 2666

The interrogation of 17 people could not produce this effect...

After Levi Garrison opened the locks, he sat down in the position.

Smiled and looked at everyone.

Agent Blade was about to press the alarm button.

Agent Black Hawk stopped.

"no, do not want!"

“Even if the entire Sky Shield Bureau knows it, it can’t stop him! And the result is worse! Sky Shield Bureau will disappear from this world, and we will all die! Pressing it at all won’t work!”

Agent Black Hawk explained.

Now that Levi Garrison has the ability to smash “Shen Shen No. 1”.

Eliminating the Tianshield Bureau is not a problem.

Levi Garrison smiled: “Well, he is a smart man! Knows how to judge the situation!”

“Since you were deliberately arrested by my people, you must have other purposes! It’s too easy for you to kill us!”

The Black Hawk agent said, “Actually you caught the 17 of my men, right?”

“Well, it’s wrong! I caught it! I really didn’t expect you to catch me to replace them?”

“This should be told to you by the Lab of the Gods, my status is very high and I can change people.”

Hear here.

Agent Black Hawk understands.

Levi Garrison really knew everything.

“Could it be that the dark god...”

When Agent Black Hawk spoke, he realized Levi Garrison’s expression.

Where is the mysterious person?

Isn’t it all Levi Garrison?

The former Levi Garrison was overwhelmed!

It is the greatest enemy of the Eagle Nation and the Lab of the Gods!

Now too!

“Ha ha ha ha.....”

Agent Black Hawk smiled suddenly.

You would never have thought of the Lab of the Gods, Mr. X, that Levi Garrison, whom you overlooked, already knew your existence, right?

The three people you are looking for are actually Levi Garrison alone!

After thinking about it, it's kind of ridiculous!

By now.

Levi Garrison already knew.

The Black Hawk agent no longer hid it, and took the initiative to say: “Yes, it's wrong! The Lab of the Gods still exists! Recently they contacted me and asked me to check the information of the ancient clan masters of the Garrison clan...”

You should be familiar with the people who have joined me, Lucifer and Mr. X back then! them.....”

Agent Black Hawk told Levi Garrison all the content of their messages.

Levi Garrison smiled: “Okay, it's all old friends! Where are they?”

“At this point, I have to say that the Lab of the Gods is really wise! They are in Daxia Capital! Right under your nose...”

Agent Black Hawk said this.

Levi Garrison almost jumped up in shock.

“Just in Daxia?????”

Chapter 2667

This is what he didn't think of anyway.

Understood!

Levi Garrison thought of the few pure energy bodies he had pursued from Forbidden Area No. 76 before.

All the way to Daxia.

He thought it was those people who discovered him and deliberately led him to Daxia.

After arriving in Daxia, he left in several directions.

Finally, I pursued a person who arrived in the capital and disappeared...

Thinking about it now, no one found him at that time, and they weren't deliberately leading him away.

They go back to Daxia purely where they are going.

As for why they have to be separated after arriving in Daxia.

That's because there is more than one base, scattered everywhere.

Beijing is one of them.

Figured out!

It's really amazing!

The laboratory of the gods after disappearing turned out to be in Daxia.

Who can think of this?

Levi Garrison couldn't help but admire again and again.

"What do I need to do next? Lead them out and catch them all in one go?"

Agent Black Hawk asked.

Levi Garrison shook his head: "No need for now! You pretend that nothing happened! Continue to keep in touch with the Lab of the Gods! I will say when I need you!"

I don't know how powerful the Gods Lab is now.

If you act rashly, there may be crises.

With the cards in his hand, except for himself, no one can be sure whether it can fight against the Lab of the Gods.

It is best to destroy the Lab of the Gods by yourself.

If it can't be destroyed, what should I do?

Levi Garrison wants to make sure nothing goes wrong.

Next, you need to continue to cultivate and continue to strengthen your strength and hole cards.

In order to fight against the laboratory of the gods.

On the one hand, we must slowly understand the laboratories of the gods and know what level they are now.

What conspiracies are they doing and so on.

Only by knowing yourself and the enemy can you survive a hundred battles.

To deal with a weak enemy, one punch, but an enemy with uncertain strength, Levi Garrison would never fight an unprepared battle.

Levi Garrison suddenly looked at Black Hawk: "Of course you can also? Tell the Lab of the Gods about me..."

The Black Hawk agent shook his head: "I'm not stupid! I just want to live! Tell them, then I really will die. If you are chased by both of you, we must die!"

Agent Black Hawk is a smart man.

After weighing the pros and cons, it is natural to choose to compromise with Levi Garrison.

"Just be afraid of death, just be afraid that you are not afraid of death! Then my business will be difficult!"

Chapter 2668

Levi Garrison smiled.

"Of course I won't be 100% assured of you! My people will be like ghosts, staring at you and your family all the time! And you are the same!"

Levi Garrison glanced at everyone.

This frightened Daxia very much.

I'm most afraid of the feeling of knowing someone is staring at you, but not knowing where you are, and feeling that you are always there.

And they believe Levi Garrison can do it.

But in fact, how do they understand, that's what Levi Garrison said.

He wouldn't send anyone around them at all.

But just such a sentence, firmly grasp their psychology.

A word calmed them.

“The equipment on your body belongs to the laboratory of the gods, right?”

Levi Garrison looked at Agent Black Hawk and asked.

“Well, it is!”

“Your equipment is obviously different from others! Give me the equipment! I will study it!”

Levi Garrison said.

Black Hawk very obediently gave Levi Garrison the equipment.

In the end, Levi Garrison was sent back to Daxia in the name of the Sky Shield Bureau.

After Agent Black Hawk, he immediately contacted the Lab of the Gods.

Tell Mr. X that this method really works.

“Mr. X, Levi Garrison is completely different from the past...”

Agent Black Hawk said deliberately.

“Yeah, he was our worst enemy in the past. Now it is definitely different. I have no interest in killing him!”

Mr. X obviously did not understand Agent Black Hawk’s suggestion.

But think about it, how can you think about it in other ways?

“If you want to check next, you have to be more careful! Now the ancient Garrison clan should notice you!”

Mr. X is still very disappointed.

It is equivalent to nothing done by the Sky Shield Bureau.

You can only rely on the great apprentice of the dark god.

the other side.

After Levi Garrison was sent back, Zoey Lopez still surrounded them.

Look at whether Levi Garrison has any accidents, whether there are any injuries.

Many people came to see Levi Garrison's jokes.

But only Levi Garrison's students were calm.

Who dares to catch this?

No one really thinks that this can be taken away, right?

Although they don't know what happened, they are sure that he was arrested deliberately.

Levi Garrison brought his team back to the station.

"Practice! Continue to practice for me! Then you will all retreat, and nothing can disturb you!"

Knowing that the Lab of the Gods was in Daxia, Levi Garrison knew that time was running out.

Must hurry up.

Then let them practice with all their strength, and absolutely can't be disturbed by anything.

He also found Tiance Shenshuai and others.

"By the way, how did that kid's King Kong not be bad magical skill practice?"

Levi Garrison asked.

Chapter 2669

If Tiance Young Master's King Kong is not bad, it will definitely be a great help.

Tiance Shenshuai shook his head: "I don't know either."

"Let's go, come and see with me!"

Levi Garrison and the two came to the place where Tiance God Commander practiced.

I heard a buzzing trembling sound from far away.

This breath...

It's almost the eighth floor!

It can be seen that the Marshal Tiance is very hardworking.

After receiving Levi Garrison's guidance, after such a short period of time, they all began to hit the eighth floor.

This was unimaginable before.

Tiance Shenshuai smiled.

I am very proud of my son.

But Levi Garrison frowned.

This speed is still too slow.

If you hit the ninth floor now, it's almost...

But only the eighth floor.

At the moment when the young commander of Tiance hit, Levi Garrison appeared in the name of his master and personally guided a lot.

This is infinitely beneficial to Tiance Marshal.

After all, Levi Garrison was the one who cleared the magical power of King Kong not bad!

Instruct the young marshal of Tiance not to make detours, and do it in one step...

He easily hit the eighth floor!

But the eighth to ninth level is the most difficult...

In a short period of time, Levi Garrison's requirements were still not met...

"It's too late! I wanted to train for a while before picking seedlings for guidance! Now I must plan ahead!"

"Pass on, and the competition will be held in seven days. I will select the seedlings as the three of the dark gods! I will personally guide!"

Levi Garrison said.

"clear!"

The handsome Tiance nodded.

After the news spread, Kunlun College was about to explode.

It's been a month since they came.

What is waiting is that the dean and the two deputy deans pick someone to personally guide.

This moment is finally coming.

One by one excitedly yelled.

This makes the spies in the Lab of the Gods also look forward to it!

Finally, I can come into contact with the three dark gods...

At this moment they have been waiting for a long time.

After Levi Garrison watched the Marshal Tiance, he went to see Ye Wudao and Ye Lingtian.

I have to say that the talents of the two people are very high.

After Levi Garrison's guidance, the two improved quickly.

These two people have the hope to become the super powers Levi Garrison needs.

But it still takes some time.

But Levi Garrison's sense of crisis is full.

He is thinking how to create a super strong in the shortest time?

At present, the Underworld God and the others are still good enough, but these people are taking the blood of the No.76 Forbidden Earth God.

Chapter 2670

But the difficulty is that they cannot fully absorb these forces.

Not enough!

The number of super powers is far from enough.

Regardless of the large number of people he controls now.

But after the real war, it was all cannon fodder.

There must be a super strong to support the scene!

In order to build the strong.

Levi Garrison decided to use all the resources of Forbidden Land No. 76...

Yes, there is one more person.

to this end.

He specifically ran to Jiangbei.

Look at the situation of Huoyun Cthulhu, Zhou Nanyan and Wen Lei.

The Huoyun Cthulhu now had a very weak breath, and he was still retracting a little bit.

Like a swaying and burning candle, it is about to go out.

This shows that Huoyun Cthulhu really got in.

He is about to transform and become a super strong.

It is the powerful boost Levi Garrison wants!

After so long, he really got in.

Although his talent is limited compared with Levi Garrison.

But seeing it, he inspired his potential and talent.

Be the strongest in his field.

Once he successfully retreats, he may not reach the level of Levi Garrison.

It is easy to sweep the gods.

This is the only point that makes Levi Garrison pleased...

Zhou Nanyan's breath now becomes weaker as she loves her body, so she has also touched the doorway.

Really understand the essence of this basic exercise.

However, there is still a certain distance from the Fire Cloud Cthulhu.

Need to continue.

According to this speed, the possibility of helping Levi Garrison is very rare.

Compared with the two, Wen Lei had just stepped in with one foot.

Some time ago, she was delayed a lot of time because she was protecting the law for everyone.

A super strong (Huoyun Cthulhu) has it.

Levi Garrison could breathe a sigh of relief.

But it's not enough.

There are no more than a dozen powerhouses of this level. Where can you dare to break your wrists with the Lab of the Gods?

A quick way?

It is possible to reach this level of quick success method, Levi Garrison has only heard of suction power**.

Absorbing power** can absorb a lot of power in a short time to reach the point of being a strong person.

But he has no suction power in his hands**!

This definitely won't work.

Otherwise, you don't have to suck anything else.

It is absolutely not a problem to directly absorb all the energy in the crystal and create three or four strong ones.

Um?

Crystal energy?

Levi Garrison suddenly thought of a wonderful way!
