

The Return of the God of War [The Protector]

Chapter 2791 - 2793

Chapter 2791

They don't just want to stop them, try to eliminate them as much as possible!

A bloody battle is imperative!

now.

The trapped Tiance Superintendent was still in a stalemate.

His brain is still the thinker.

And the great disciple of the dark God God in front of him no longer knows how many wounds there are.

Obviously both sides have experienced struggles, and Tiance Shenshuai has the idea of going away.

Therefore, they would stab his flesh and blood with a single knife.

The dark god apprentice grinned and said, "Go! I'll die with another one!"

Wrong.

It only takes one knife.

He must die!

struggle!

Tiance is struggling intensely...

To go or not to go?

Going can save Daxia.

But his own flesh and blood will undoubtedly die!

These two are cruel and will definitely kill them.

Just now he watched this group of guys stabbed the big apprentice more than ten times with his own eyes...

"Don't kill him! I won't leave!"

Tiance Shenshuai is really going crazy.

...

Everything is in accordance with the expected development of the Gods Laboratory.

Even the momentum is better.

At this time, all parts of the world almost knew the news of the giant creatures attacking Daxia.

The whole world is in an uproar!

After all, a few days ago, all parts of the world were attacked by giant creatures.

Now I heard that Daxia was attacked again, and it was such a powerful time.

The whole world was shocked.

Panicking everywhere!

Even fell into panic.

After all, the giant creatures this time are terrible.

Even Daxia couldn't stop her, and she was losing ground.

Now the loss is too great.

How can other countries not be afraid?

The Black Hawk agent has been escorted to the Warhawk Nation.

In Mr. X's opinion, he has no threat.

Can be let go.

After returning to the Sky Shield Bureau.

Agent Black Hawk didn't expect the boss of the Sky Shield Bureau Smith to find him.

"Nothing! Let them kill each other!"

Agent Black Hawk was surprised.

It seems that the Sky Shield Bureau already knew that he had used the authority for the Lab of the Gods to hide Leviathan under the energy power station.

Chapter 2792

Seeing the Black Hawk agent surprised, the head of the Sky Shield Bureau said: "We all know about your secret contact with the Lab of the Gods... Including the last time you came back from catching Levi Garrison, we all knew about it. You did it all for The Lab of the Gods..."

After listening.

Agent Black Hawk breathed a long sigh of relief.

As expected, the senior officials of the Sky Shield Bureau knew that they had secretly contacted the Gods' Laboratory.

He knew the existence of the Lab of the Gods in advance.

But listening to the voice did not know Levi Garrison's true strength.

So Agent Black Hawk deliberately kept an eye on it.

I just talked about the Lab of the Gods, but nothing else about Levi Garrison in particular.

After all, the more you say, the faster you may die.

There is also a skill that can use Levi Garrison's secret as a lifesaver!

After all, there are not many people in the world who know Levi Garrison's true strength, right?

It's even two or three.

This is equivalent to controlling a big secret in the world.

It can really save your life when it's critical.

Therefore, Agent Black Hawk did not speak out.

Even if the opponent is the head of the Shield Bureau.

"So, don't worry, this is a good thing for us! It would be nice to let them lose both!"

The head of the game Smith said.

Agent Black Hawk pursed his lips: "But from the current situation, Da Xia is the one to be abused! At that time we will have to face a powerful and terrifying enemy-the Lab of the Gods! That is much more threatening than Da Xia. !"

Suddenly, the head of the game, Smith, smiled mysteriously: "So in your eyes, our Warhawk Nation is weaker than the Lab of the Gods? Think that we all rely on the development of the

Lab of the Gods in the past? I feel that although we are cooperating, we are always inferior. At the end of the God Lab?"

The head of the game Smith said so.

The face of the Black Hawk agent changed drastically.

Is it not?

Isn't it right for the Lab of the Gods to be strong?

The Warhawk State has its current status, and the Lab of the Gods has made great contributions!

Could it be...

Suddenly a shocking and important idea flashed through the mind of the Black Hawk agent.

Startled him in a cold sweat!

The head of the bureau, Smith, smiled and said: "Actually, you cooperated with the Lab of the Gods early in the morning, and we knew about the open permissions! And you think about it, if we didn't allow it on purpose, would you have enough permissions to easily turn on all energy power plants? "

Hear here.

Agent Black Hawk understands.

In fact, his own authority is not enough, all this is allowed by the Sky Shield Bureau and even the War Eagle Nation!

They did it on purpose!

Pave the way for the laboratory of the gods and let them surface to deal with Daxia...

In fact, Tianshield is the real behind-the-scenes!

It is estimated that even the Lab of the Gods didn't even think of it!

This will be the situation!

The Black Hawk agent looked at the head of the bureau, Smith, and swallowed fiercely:
"Could it be..."

"Yes! Nothing wrong is what you think!"

Chapter 2793

In fact, since the Lab of the Gods first disappeared, we knew it! The turmoil in the past few years was caused by them! Didn't you find that our Warhawk Nation is very low-key in the past few years? Doesn't it seem to be involved in anything? Isolated from the world..."

Hearing the head of the game, Smith said so.

Agent Sombra reacted.

It is true.

"That's when we are developing ourselves while looking at what the Gods Lab is going to do? We have been waiting for them!"

Agent Black Hawk nodded heavily: "Understood, everything is understood!"

"Tell you one more secret-our War Eagle Nation is..."

The head of the game, Smith, leaned into the ear of the Black Hawk agent and whispered.

"what???"

Agent Black Hawk's face changed drastically.

Eyeballs are about to fly out.

Even if the head of the game Smith finished.

He was surprised for a long, long time...

Can't react for a long time.

But after knowing this.

He became more grateful that he didn't tell Levi Garrison's true strength.

This is likely to become a weapon for him in the future!

"Now we just need to sit on the mountain and watch the tigers fight!"

The head of the game, Smith, smiled sinisterly.

...

the other side.

The big troops Xiao Liejun was waiting for did not arrive.

That's because they are all blocked.

Unable to move forward normally.

Even the air support was disturbed and attacked...

Jiang Ye's army encountered a little harassment, and immediately began to make a detour.

In this way, the journey would be too far.

So that I still can't make it...

The point is that these dead men linger like flies.

Wherever you go!

Go horizontally, right?

There are few others!

You don't know where...

There is no way!

The speed of travel is extremely slow.

At most, it is air support, and the transport force has reached a point.

But this does not quench thirst at all.

Xiao Liejun and the group have retreated to a position a hundred kilometers away.

This place happened to be the general base of the Southern Territory Theater.

Everything is in the configuration.

And has a natural advantage!

Everything is ready!

Can block one block!

But the easiest level before has been broken.

The position here can only stop them from continuing northward.
