

Wonder Doctor Chapter 29–30 –

Chapter 29

Liu Chen and the others also saw it and their hearts jumped.

The one who came over was a lobby manager, with an obese figure, although he was wearing a uniform he couldn't hide it, his greasy figure, he looked at the crowd and said.

“Hello everyone, my name is Big Fat, I'm the lobby manager of the bar.”

The manager took out a list and put it on the table, smiling.

“We are a regular bar, owned by the Luo Group, with several other companies such as Haotian Enterprises and Hao De Holdings.”

“Our bar does not promote fighting, but there is no harm in having a real grudge, you just need to pay the price.”

“I have already calculated the price, who will pay for it, gentlemen.”

Big Fat's words were spoken in an orderly manner, not only introducing the backstage of the bar all over, but also setting out the bar's position very clearly.

Although the previous incident had ended with Liu Wenlong recognising Lin Ran, there was nothing Liu Wenlong could do about the compensation, he would have to pay for it as usual.

“I'll go, thirty thousand!”

Seeing the price on the list, even Liu Chen couldn't help but be staggered.

Although it was chaotic just now, the most that was broken was just some drinks, plus a few tables, chairs and benches, so it couldn't be worth that much money anyhow.

“Fatty, you are amusing us, just a few bottles of liquor plus a few tables and chairs, you want 30,000?”

Liu Chen couldn't help but speak up, his family's condition was good, but it didn't mean that he could squander it freely, no one's money came from the wind.

Big Fatty smiled disdainfully at his words and explained.

“The drinks in our bar are all clearly priced, and the tables, chairs and benches are real mahogany. Just now a few people broke a total of two tables and four chairs, and this 30,000 is still the cost of repair.

Saying that, Big Fat snapped his fingers, followed by someone bringing over a fragment of a chair and placing it on the table.

“If you don't believe me, you can check it on the spot, and if it's not mahogany, not only will our bar not claim the compensation, your consumption this time will also be free of charge.”

When he said that, Liu Chen and the others were speechless.

Big Fatty laughed triumphantly at this.

“If there's no problem, then let's pay for it.”

Fatty stood looking on triumphantly, Liu Chen and the others had a chill in their hearts, this 30,000 fast compensation payment, I'm afraid it's not going to be less.

“Or else we each chip in some?”

Xu Lan asked as he looked to the crowd, Liu Chen waved his hand.

“No, I can afford to pay 30,000, you are all students, so don't get involved.”

With that, Liu Chen took out his card and prepared to pay.

Brother Jiuzhi saw this and said.

“Let's both pay for it, I at least have a job, and we are clear about Old Six's conditions, so forget it.”

“No need.”

Lin Ran suddenly spoke, Liu Chen Zhang Xu two people smiled and looked, the latter asked.

“Old Six, do you have ten thousand?”

It wasn't that they didn't believe Lin Ran, but they were really brothers and knew the conditions of Lin Ran's family and didn't want him to be in a difficult situation.

“It shouldn't take that much, you guys wait.”

Lin Ran said as he got up and looked at Fatty and asked.

“You just said that the bar is an industry owned by the Luo Group, right.”

“That’s right.”

The fat manager nodded his head, his face full of smugness, the Luo Group was a leading company in the entire Temperance City, and as the manager of an industry under the Luo Group, he always felt he was superior.

“Then take a look, how much discount can I get on this card.”

Lin Ran said, taking out the supreme diamond card that Liu Yue had given himself this afternoon, the latter said that it could all be discounted under the Luo Group enterprise, and he didn’t know how many discounts he could get.

Chapter 30

“What is this?”

The big fat manager took the card and frowned slightly, throwing it to Lin Ran a moment later.

“What’s this bullshit card of yours, I don’t recognize it, hurry up and pay for it, I have things to do, don’t delay.”

“Look at it more carefully.”

Lin Ran wasn’t angry and handed the card over again, he didn’t believe Liu Yue would lie to him, and not everyone knew this kind of supreme diamond card, obviously not in front of him and this fat manager.

“I said, do not know! Hurry up and pay the money, if you don’t give it, I’ll call the police!”

The fat manager said in a cold voice, he didn’t bother to put on a good face to Lin Ran, who didn’t look like a good customer.

“You call the hotel manager.”

Lin Ran placed his card on the table and then made his way back to his position.

“Manager? I’m the manager, which other manager do you want?”

The fatty was a little displeased, the young man in front of him and this did not take him seriously at all.

“I said call your hotel manager here, didn’t you understand?”

Lin Ran’s face snapped cold and his voice was raised several times, this shout instantly drew everyone’s attention to him.

The fatty even saw that Brother Long, who was sitting on one side, had already stood up and was staring at him with an unkind gaze, as if he would be beaten into a pig’s head if the young man in front of him gave an order.

He was afraid, but his mouth was still very tough.

“Yes! You’ve got guts, wait for me, I want to see how you’ll end up today.”

After saying that, the fatty ran all the way to shout at the bar manager.

The bar manager was a beautiful woman named Jiao Jiao, a person with eight faces, as soon as she came out her eyes saw the supreme diamond card on the table, and her heart burst, she hurriedly went forward and asked.

“I wonder whose card it is?”

“Mine.”

Lin Ran got up, his expression bland.

Seeing Lin Ran, the beautiful manager was stunned, then hurriedly smiled and said.

“I think there’s been a misunderstanding, several of you are valued guests, let’s forget about this time, no need for compensation or anything, and all purchases this time will be waived.”

“Manager!”

The fatty on one side was puzzled by the situation and came up to shout.

“Shut up!”

The beautiful manager glared at him.

“But manager, on what grounds! He took out a card that no one knew and waived the bill? And no compensation, is this business going to be done in the future.”

The fat man was very upset in his heart.

Liu Chen and the others had been on the verge of shouting out in excitement, when they heard Fatty's words, they couldn't help but gnash their teeth one by one, this dead fatty was simply too annoying.

Lin Ran just watched silently without saying anything, what kind of meaning did this Supreme Diamond Card have, he actually didn't know.

“You're the bar manager? Do you have a say in whether business is done or not? Get lost, you're fired!”

The beautiful manager had completely lost her patience and said in a cold voice.

“Why?”

The fatty was puzzled and looked at Lin Ran and the others with a hint of hatred in his gaze.

Just because of these milquetoast brats in front of him? He was expelled himself? On what grounds? He had to find out.

“Why?”

The beautiful woman experienced, her face grim, pointing to the Supreme Diamond Card on the table.

“Do you know what kind of card this is? What does it mean? Let me tell you, this is the Supreme Diamond Card, holding this card to spend at the Luo Group's properties, all bills are waived!”

“All free of charge!”

The moment these four words left his mouth, not to mention Fatty, even Liu Chen and the others froze, each looking towards Lin Ran with envy in their eyes.
